Remembering a Mentor

Vince Coates passed away at the age of 55 on Friday October 9th, 2015 from complications due to his

recent diagnosis of pancreatic cancer. Vince had a loving and supportive family, including his wife of 24 years, Patricia, and two children, Eliane and Liam. He was a lifelong advocate for people with disabilities and that is just one way in which

he will be remembered. Vince will be remembered in the Frederick Community for his 30 years of service at the Scott Key Center as well as for his love of the arts. His passion for education led him to his

two Master's Degrees and his mentoring of over 30 college and high school student interns throughout

his years at Scott Key. His art collection includes poetry, paintings, sculptures, and the "Umbrella Project." He had a love for swimming, particularly open water swimming and cycling. He accomplished two swims across the Chesapeake Bay

and completed his last Tour de Frederick bicycle ride right before his diagnosis. Vince will always be remembered for his unwavering devotion to everything he did in his life. He is truly missed by everyone he impacted in his life.

HCC's Flower and Garden Show

Scott Key Center will be participating in the Hagerstown Community College Flower and Garden Show held on March 12th and 13th. This will be the 22nd Show put on by the Hagerstown Community College Alumni Association and it will be The Scott Key Center's 7th year participating. During the show individuals will have an opportunity to browse, learn, and buy various gardening equipment, and services.

There will also be many seminars and demonstrations throughout the weekend that attendees can sit in on. SKC's participation in the show will mostly include the selling of rain barrels, live plants and flowers, as well as gardening accessories (water cans, etc.). If you would like

to attend the show it is \$5.00 for adults and free for children under 12. It will be held in the Athletic, Recreation and Community Center at Hagerstown Community College.

Rain Barrels for Sale

Scott Key Center Rain Barrels are \$80.00 per barrel and hold between 55 and 60 gallons of water. Each barrel is recycled and was previously used to ship products, primarily olives. Rain trickles down into the barrel through a mosquito-proof screen and 5 openings. An overflow

hose can be used to direct the water wherever desired after the barrel is filled. All barrels are able to connect to your garden hose and can be used throughout your lawn and garden. There is a "User Guide" that comes with every barrel for easy installation. These Rain Barrels are a smart investment

Annual Dinner Dance

Scott Key Center's Annual Dinner Dance will be held on Friday, March 18, 2016. Doors will open at 5:00pm and dinner will be served at 5:30pm. It will take place at the Frederick Holiday Inn & Conference Center at 5400 Holiday Inn Drive Frederick, Maryland 21703. The cost is \$30.00 per person; admission is free for all SKC Employees and Staff. This year's presenters include Tim Berkson and Mike Wambach from Handicap This! Productions. RSVP and Payment are due by March 4, 2016.

Meet Bob Long

How many years have you worked at SKC?

I and a half

What are your main job responsibilities?

Bus driving

How did you get here?

My previous employer went out of business and I made a career change.

What made you chose this profession?

I found that I enjoyed working with people with disabilities after coaching Special Olympics in Frederick County for many years.

Where do you live?

Keymar, Maryland

Where do you see yourself in 5 years?

Retired

What are your 3 main accomplishments?

- 1) *Silver medalist in the World Masters Championships in Sydney*
- 2) *Circling the globe by working odd jobs*
- 3) *Successfully coaching Special Olympics*

Who do you admire?

John Glenn

What is the last book you have read and what did you like about it?

*Fully Active by Timothy Shriver
It is the story of Special Olympics*

What is the most important thing you have learned?

Keep your mind full and your bowels empty

What motivates you?

I like to prove people wrong when they tell me that I am unable to do something.

Do you have any phobias?

None that I can think of

If you were reborn as an animal, what would you like it to be?

An eagle

What are your hobbies?

Competitive swimming, skiing, sailing, scuba, photography, cycling, hiking, camping, travel

How do you think people will remember you?

As a humanitarian and an adventurer

What was your worst injury?

A fractured shoulder

What is the farthest you've been from home?

I have been around the globe. I'm not sure which point was the furthest, possibly India, Central Australia, or Southern Asia.

What was your most rebellious moment?

Telling the Dean of Students at my college that he was full of crap and that I would not be attending the graduation ceremony.

Winter Weather Safety Tips

Before severe winter weather conditions occur, consider the following safety tips:

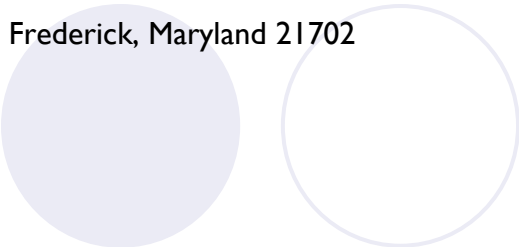

- Allow extra time for trips and drive with extra caution on slippery or snowy roads
- Check and replace batteries in flashlights, radios, and cell phones
- Put all-weather or snow tires on your car
- Test your antifreeze
- Ensure your car's wiper blades are in good condition
- Place an emergency kit in your car that includes items such as an ice scraper, snow brush, jumper cables, road salt and sand, blankets, warm winter clothes, a shovel, tire chains, emergency flares, and extra water
- Equip your home with a chemical fire extinguisher, smoke alarms with current batteries, and a carbon monoxide detector
- Stock up on bottled water, no-cook food, and any necessary medications

Have a first aid kit in your home. Additionally, if you expect to lose power during a winter storm, make sure you have a backup source for heating, such firewood for a fireplace, portable space heaters, and extra blankets, sleeping bags, and warm winter clothes.
